

Tahoe City PUD Seeks Funding for Local Dog Park

For the love of dogs!

Following strong community support the TCPUD's Board voted to help fund a Dog Park in Tahoe City. The project would have been constructed this fall, however due to the State of California's budget shortfalls, possibly effecting the District's Property Tax Revenues, the project was cut. But the project has not lost its momentum.

With Board support staff & local community members are seeking \$6,000 through grants and sponsorships for its construction.

Here in Tahoe City residents and visitors alike do not have a safe welcoming place to bring their dogs to exercise and socialize safely. The proposed Dog Park will offer just that.
